

Why I creat this web-site

I've been watching Harry Potter for a long time and sometimes I want to know something about a certain character, but it's very inconvenient to type each character in the search engine. So I decided to solve this problem and create a website that will have all the main characters and their data.

About me as a fan

I've been watching Harry Potter for over 3 years. During this time, I learned a lot of interesting things about movies and books. I believe that everyone should watch these films at least once, at least one film. I still don't understand how I could like Harry Potter because it's a fantasy genre, and I'm not a fan of something mystical.

My favorite characters from Harry Potter are Draco Malfoy, Bellatrix Lestrange, Luna Lovegood. My favorite book is "Harry Potter and the Deathly Hallows", the movie is "Harry Potter and the Deathly Hallows part 2"
